Named Chairman of Conference.****By United Press.**

LONDON, July 16.—The 15th important inter-allied conference since the Versailles Treaty was signed opened this morning in the offices of Premier Ramsay MacDonald where representatives of 10 nations gathered about a table for another conference or repatriation. In the 18 months that have elapsed since the last similar conference at Paris in January, 1923, the French and Belgians invaded the Ruhr and Germany ceased payment. More recently Europe took heart over the experts' report as a basis of settlement and it was to consider ways and means of giving effect to this report that the present conference assembled.

Standing in the door of his office, MacDonald welcomed American Ambassador Kellors and Colonel Logan, Jr., Premier Herriot of France and representatives of Italy, Belgium and Japan, besides officials and dignitaries from Portugal, Jugoslavia, Greece and Rumania and scores of experts and secretaries.

The conference was opened with a brief speech of greeting by MacDonald, to which heads of the various delegations replied. The British premier was elected chairman, and discussion was started on a basis of the last French-British memorandum. Three committees were appointed to discuss the various points under dispute. The first is to decide the question of what authority is to determine if Germany has defaulted. The afternoon session was completed with committee meetings.

The opening session adjourned after two hours and the date of the next session was not fixed.

**Dunbar Borough
Improving Road
Leading to Town**

Improvements are being made to the main road into Dunbar. Construction of a macadam bound highway there is well under way. A detour over the township road which connects with the Connellsville-Uniontown road further south is being used as an outlet from the town.

The town council let the contract for improvement of the rough section of road within the borough limits after considerable agitation had been created by motorists of that community. The road was a mass of holes and nearly impassable.

The section under construction will connect with the brick road in the township that leads to the concrete highway. In the construction of it some of the curves have been eliminated.

**Gettysburg is
Vividly Re-Told
By Dr. H. J. Bell**

The members of the Kiwanis Club and their guests at today's luncheon were both interested and thrilled by the splendid talk Dr. Harry J. Bell of Dawson gave on the battle of Gettysburg.

He related to young menhood on the edge of this famous battlefield, the story of the struggle which proved the turning point in the Civil War, but been an absorbing topic to Dr. Bell and he has acquired a knowledge of the event, and the incidents preceding and following it, the telling of which his auditors followed with closest attention.

After the battle of Chancellorsville, in which Lee's army administered a stunning defeat to the Union army under Hooker, the Confederate commander decided on carrying the campaign north of the Potomac, to Maryland and Pennsylvania, for the two-fold purpose of relieving the pressure on Richmond and to provide his army with subsistence, the sources of which had been well-nigh drained during the campaign in Virginia.

Lee sent General Ewell's corps as the advance guard, followed later by General Stuart, the cavalry leader, for the purpose of threatening Harrisburg and Philadelphia. Other Confederate corps followed before Hooker, then on the opposite side of the Rapidan from Lee, discovered that Lee's army was on the move or had learned of the objective. Hooker finally put his army in motion on a course generally parallel with that of Lee, the South mountain dividing them. When the advance of Lee's army turned westward, after crossing the mountain, it unexpectedly met the Union advance in the vicinity of Gettysburg, precipitating the first day's battle north and west of the town.

These events, and the movements on the components of the two armies on the three days of the battle, Dr. Bell described so clearly that a striking mental picture of the "high water mark of the Confederacy" was presented to his hearers. He attributed to General Warren, chief engineer of the Union army, the credit of having made it a victory instead of a defeat, by his appraisal of the value of Little Round Top as a key position and his prompt action in sending troops to hold its against the rapid advances of the Confederates.

The success of the Union army in this battle was due, Dr. Bell said, to this incident and to the fact that General Meade was in command, having succeeded General Hooker but two days before the battle began. Another reason was that Pennsylvania troops, which comprised a large part of Meade's army, were fighting on the soil of their home state. The "honorable slowest" of General Longstreet, one of Lee's corps commanders, in failing to move when ordered to occupy Little Round Top, lost that important position to the Confederates and placed them at a disadvantage during the second day's fighting. Then on the third day Longstreet failed to start at daybreak as directed by Lee, Pickett's division on its famous charge to sever the Union center on Cemetery Ridge. Anticipating the movement the Union line was prepared to meet it when it did come about mid-afternoon and with the result that the lines held, the charge failed and the battle was lost, from which day the cause of the Confederacy began the descent which terminated at Appomattox nine months later.

Members of the Grand Army including W. P. Clark, W. H. Shaw, C. P. Hill and Captain E. Dunn, who participated in the battle were guests of the club at the luncheon.

Best Yet Held.****PRES. WILLARD ABSENT****President of Baltimore & Ohio De-
tained by Business Engagement and
Vice-President Galloway Is Unable
to Remain for Day's Program.**

Baltimore & Ohio Railroad employees from Pennsylvania, Maryland and West Virginia, their families, sweethearts and friends, numbering more than 12,000 flocked to Olympia Park, Versailles, yesterday where the fourth annual outing of the Baltimore & Ohio Veterans Association was held. The picnic was the best ever held by the "vets" and everybody enjoyed the day at the park more than 1,200 were in attendance from this city.

Covers were laid for 75 railroad officials and honored guests of the Baltimore & Ohio Veterans Association at a chicken dinner that was served in the Park Hotel. Vice-President C. W. Galloway of the railroad was among the guests. Mr. Galloway was called away on an important business appointment at 1 o'clock and could not make the speech as the program called for, much to the disappointment of the throngs that gathered in the park. President Daniel Willard of the road was unable to attend the outing.

E. A. Peck, general superintendent, of Pittsburgh, acted as chairman at the speaking at the band stand at 4 o'clock. Mr. Peck opened with a short talk and introduced the speakers. W. W. Wood, chief of the western department, of Baltimore, Md., and G. W. Sturmer, president of the Veterans Association, also of Baltimore, were among the speakers. President Willard and Vice-President Galloway, C. M. Shriver and A. Fries, speakers selected for the day, were unable to appear. The men substituted served in an excellent manner. The speakers, although addressing the audience but for a short time, gave interesting talks and dwelt largely upon the success of the railroad during the past years and the Baltimore & Ohio's place in the world with the other railroads. Mr. Peck in his talk estimated that "more than 20,000 persons are spending the day on the grounds as guests of the railroad." "It is the only railroad in the country that would do anything of this kind for its employees and their friends," he said. Mr. Sturmer, in his address, gave a brief history of the railroad.

Mr. Wood told the audience that you have to start from some place to get somewhere and "that is what our honorable president and vice-president did." President Willard tapped this in his youth, while the vice-president worked as a messenger boy for the Baltimore & Ohio. "To get some place and at any time, and get there use the B. & O.," Mr. Wood urged.

Following the speech making, J. M. Rubenstein of Hazelwood, accompanied by Miss Jane I. Andrews also of Hazelwood, played a violin solo. Miss Kathryn Parrell of Glenwood, accompanied by Miss Elizabeth Passmore, also of Glenwood, sang. Every person connected with the program was an employee of the Baltimore & Ohio railroad.

A one-act exhibition ball game between the veterans of the railroad took place at 3 o'clock at the ball park "Shenandoah" Ebenezer of Pittsburgh pitched for the victors, while W. W. Wood of the western department, twinned for the losers. "Shenandoah" outplayed the "vets" and the game ended in a tie. The Maryland outfit sent one pill over the fence. Both teams used two mounds. This was the third meeting of both outfits, with Glenwood in the long end, with two wins and one defeat.

All children under 12 years of age were given two amusement tickets each. They were distributed at the park entrance and were good for all the amusements except the ponies, scooter and bus-house. Dancing was divided into afternoon and evening sessions and the ball was filled, despite the warm weather.

The members of the committee were badges so as to be distinguished from the rest of the crowd.

Other Baltimore & Ohio officials seen on the grounds were J. P. Taggart, general passenger agent at Pittsburgh, W. P. Booth, trainmaster at Connellsville, C. W. Gorchuck, transportation assistant at Pittsburgh, J. H. Carroll Jr. general freight agent at Pittsburgh, G. W. Martin, superintendent of Connellsville Division.

**AMERICAN AIRMEN NOW
GUESTS OF BRITAIN ON
FLIGHT AROUND WORLD****By United Press.**

CROYDEN, Eng., July 16.—Circling down to the level plains of Groyden, where an immense crowd welcomed them, America's world fliers landed their planes at the airfield here this afternoon, having flown from Paris in less than three hours. The Stars and Stripes were flown at numerous points about the 150-acre airfield and many Americans were among the throng which cheered Lieutenant Smith and his companions. Officials of the air ministry, including General Brancher, air commander, extended official welcomes to the aviators.

A score of mechanics were waiting to groom the machines, the first thought of the fliers after they had landed.

The first welcome here the airmen went to London by automobile.

The Americans took off from La Bourget on the outskirts of Paris, at 11:06 A. M. and were escorted by five French planes to the English Channel. There an air expert plane carrying 11 passengers who had paid huge sums for the privilege guided the fliers to England.

**CONNELLVILLE
GETS NEXT REUNION
OF COMPANY D**

The annual reunion of the old Company D and Medical Detachment of the 110th Infantry which served during the World War, was held Tuesday night at the Hotel Leroy at Macon, Ga. There was no gathering last year. A banquet and business session was held, after which there was a general get together and discussion of old times.

At the banquet 44 members of the Macontown American Legion were guests. Lieutenant John L. Robinson of Uniontown served as toastmaster and speakers were from Macontown. They were Burges W. D. Lewis, a major in the Hospital Corps in the Spanish War, and President Ralston of the Macontown Chamber of Commerce. General Edward S. Martin of Waynesburg sent a letter expressing his regret at not being able to attend. There was a big delegation of Connellvillians at the affair. Several automobiles carrying them from here.

The next reunion will be held on July 16, 1925, in Connellsville. Officers for the year were elected at a business meeting. They are Thomas Delaney, president, William T. Blain, vice-president, Charles Moore, secretary, and French B. Dursi, treasurer. All officers are from Connellsville.

**Everson Street
Paving Finished
Route Open Soon**

SCOTSDALE, July 16.—Late last evening work was finished on the concreting of Brown street, Everson, which with the short stretch of state road at Home Works, to the south of Everson, will complete the Scottdale-Everson-Connellsville route. In 21 days the street will be thrown open to travel.

Yesterday just before the work was finished, the contractor ran out of cement and it appeared there would be a delay of several days but this was obviated when the engineer in charge gave permission to use a supply that could be secured in Scottdale.

Since the improvement of Brown street was begun several months ago there has been a decided improvement in the road and this has been expensive to the borough. It is estimated that council has expended \$3,000 in keeping the detour in condition to withstand the heavy traffic.

**Negro Who Shot
B. & O. Officer
Held for Court**

Given a hearing yesterday afternoon before Alderman Fred Munk on a charge of felonious shooting with intent to kill, Laddie Mackins of Mount Holly N. C., the assailant of E. D. Moore, Baltimore & Ohio officer in the yards here last Thursday, was held for court. Mackins, walking on crutches, was able to stand for his trial. The railroad policeman is still confined to the Connellsville State Hospital where it was said his condition is satisfactory.

When taken to the hospital following his arrest a few hours after the shooting Thursday morning Mackins made a statement admitting he had fired on Moore. He said he did not know the man was an officer.

At the alderman's office yesterday he waived the preliminary hearing, saying he was anxious to get the matter to court and bring it to a close as quickly and easily as possible.

Edward Rice of Knoxville, Tenn., and Ezell Owens of Columbia, N. C., both colored who were being handcuffed by Moore when Mackins fired were also given hearings and held as material witnesses. Bail was fixed at \$1,000 and unable to furnish it they were taken to jail.

Mackins said he came here from Broadok. Officers however understood he worked in West Virginia and is known there as a bad man.

The negro witnesses said Mackins shot Moore after the officer had handcuffed them to the step of a car. Moore was identified as having served a term of six years in Moundsville for felonious cutting. Both men were arrested the same morning of the shooting, shortly before Mackins was located. They had escaped from the handcuffs.

Mackins is suffering from a bullet wound inflicted by Captain R. C. Blessoe of the railroad police. Located on Train No. 42 that morning the police captain boarded it and in a scuffle for Mackins' gun, which fell to the floor, the negro took advantage of an opportunity to jump from a window. Blessoe leaped after him and fell down an embankment when Mackins endeavored to get away. Blessoe shot him. The wound is not serious, however.

Surviving are his wife and two sons, Earl D. and Gilbert D., and nine brothers and sisters. Mrs. Lincoln Marx of near Berlin Somerset county, Charles H. Berger and Mrs. Clinton Campbell of Wilkensburg, Mrs. William Faith of Pittsburgh, Mrs. William Taylor, Mrs. Albert Eckman and Clarence Berger of Scottdale, William Berger of Watts, Saltlick township, and W. H. Berger of Connellsville.

The funeral service will be held Thursday at 2:30 o'clock at the home, with Rev. Judson Jeffreys officiating. Burial will be in Scottdale Cemetery.

EARLY IN AUGUST****After Acceptance Speeches
Have Been Made by the
Nominees.****USUAL ORDER REVERSED****By Postponement of Notification of
Coolidge; Respective Headquarters

Republicans Ready for Challenge.**

By DAVID LAWRENCE
Copyright 1924 by The Courier
WASHINGTON, July 16.—The presidential campaign will not begin in earnest until after the second week in August.

President Coolidge's speech of acceptance which originally was to have proceeded that of the Democratic nominees as per customs has been postponed and the reversal of the order may have some bearing on the way the campaign will be unfolded.

Usually the Republicans hold their convention first and notify their candidate before the Democrats do. This means that the Republicans bias the way and take the offensive, so to speak. This year it will be different. John W. Davis will deliver his speech of acceptance at Clarkburg, W. Va., within a fortnight and will lay down the fundamentals of the campaign—his conception of what the issues should be.

The keynote speeches, the one delivered by former Senator Burton of Ohio at Cleveland and the other by Senator Pat Harrison of Mississippi at the Democratic convention, reflect to a certain extent the argument that will be used on the stump but neither speech gave a constructive program.

Mr. Coolidge has not had an opportunity since the adjournment of Congress to make a comprehensive statement of what his policies will be if he is given the support of the country and a sympathetic Congress. He will have a chance to digest whatever thoughts are expressed by the Democratic nominee and in a sense make a rejoinder.

The Democrats are anxious to take the offensive. John W. Davis is conferring just now with all the party leaders but his basic ideas of what the Democratic program should be have been formed during the past year from close observation of the political scene. While he never was an active candidate, he kept in constant touch with what was going on. The biggest issue of the campaign will be which party will be the more effective in carrying out campaign promises. The Republican party has been in control of Congress ever since the election of 1915. The executive branch of the government has been in Republican hands four years. During that time the Democratic party has been split into an eastern and western wing and in the last session of Congress an insurgent Republican movement was so powerful that important pieces of legislation were passed by a coalition of insurgent Republicans and Democrats with the President's support.

The Mellon tax plan proposed in the Administration was defeated and so was the will of the executive on the soldier bonus. The farm relief program was adopted. All this is food for the Democrats who will insist that the Democratic party is better constituted to be effective because of its cohesion than is the Republican party and that while Calvin Coolidge himself is a much stronger than

LATE HIGHWAYS INFORMATION BOOK FOR DRIVERS READY

"Facts Motorists Should Know" is a title of a bulletin issued by the Department of Highways which is to be made available to motorists as one of the best of the department ever did. It is in the form of a time-table folder and contains information of wide scope and unduplicated usefulness. Motorists are able to procure copies of the bulletin at the State Department of Highways. They will be sent to applicants free. About 10,000 have been printed. The bulletin was prepared by M. H. Meser, head of the publicity bureau. It required months of compilation. It gives data on through motor routes, comprehensive table of distances, location of tourist camps, points of interest, names and locations of mountains, the rules of the road and a digest of the State's motor laws. There are 30 pages in the bulletin. It is a map insert, showing the State's highways, brief sketches of main highways and trails, routes between cities, historic points, state forest parks, camp sites by miles, color schemes of State roads, and a list of license privileges issued by the State and other material that makes the bulletin a very valuable handbook for the motorist.

LATE LEGION PREPARES FOR CONVENTION

PHILADELPHIA, July 16.—Headquarters of the American Legion, Department of Pennsylvania, is planning finishing touches on the program of the annual state convention to be held at Greensburg August 21, 22 and 23. PLAYGROUNDS FIELD-TRACK MEET FRIDAY

The North End outfit increased its lead in the playground league today by downing the West Side team by a 11 to 2 score. Micker worked on the mound for the winners, Colborn for the losers. The league leaders got six hits, the trailers four. The West Side outfit turned in two double plays. Micker whiffed nine, while Colborn sent five to the water bucket over the aerial route. Carrell worked behind the bat for the victors while Foster kept his post behind the willow.

A preliminary field and track meet will be held Friday by the three teams. Among the events are: 100-yard dash for boys over 12 years of age, 75-yard dash for girls over 12, relay for boys, shot-put for boys, baseball throw for girls, baseball throw for boys under 12, high jump for boys and girls, running broad jump for boys and girls and standing broad jump for boys and girls.

PARK SWIMMING POOL TO OPEN ON THURSDAY

Definite plans to throw the Shady Grove swimming pool open to the public on Thursday afternoon were announced by Bert Miller, owner of the park. The delay of the last week or so was occasioned by lack of water to fill the large pool which covers an acre of ground.

The pool was more than half filled last evening and will be ready for the bathing Thursday afternoon. The bath houses have been rushed and also will be in shape for the season.

Several carloads of sand have been ordered for the beach which will be put in shape early next week.

Secret of Happiness.

The greatest medicine on earth to happiness is the fit health with which so many women are afflicted. The young woman is subject to pain and irregularities, the mother to the tortures of displacements with consequent pains, aches and nervousness—the middle aged woman to the uncomfortable conditions caused by this critical age. The one remedy to control these conditions and restore the system to a normal healthy condition is Lydia E. Pinkham's Vegetable Compound, which for fifty years has been restoring sick and ailing women to health and happiness.—Advertisement.

To Arrange Picnic.

GREENSBURG, July 16.—The executive committee of the Westmoreland County Soldiers and Sailors Veterans Association will meet in the G. A. Stop Suffering From Asthma and Hay Fever

If Asthmador does not instantly relieve the very worst attacks of Bronchial Asthma, difficult breathing, and the Asthmatic symptoms accompanying Hay Fever your money will be returned, in the terms upon which all druggists are selling Asthmador and Asthmador Cigarettes. No matter how inveterate or obstinate your case, or how often or violent the attacks, Asthmador will instantly relieve you, usually in ten seconds, but always within fifteen minutes. Druggists throughout the U.S. have been authorized to sell Asthmador on a guarantee to return the money in every single case where it does not give instantaneous relief, or is not found the very best remedy ever used. You will be the sole judge yourself, and under this positive guarantee your own druggist can be depended upon refunding your money if not benefited. Also sent on same guarantee, per parcel post, C. O. D., or on receipt of price, 65c, if not kept by your druggist, by addressing R. Schilman Co., 1734 N. Main, Los Angeles.

Supt. E. A. Peck Estimates Picnic Crowd at 20,000

Continued from Page One.

Shortly after 6 o'clock the large crowd began to melt away. The first special train departed at 6 o'clock bound for Cumberland and made the run to this city in one hour and three minutes.

Much praise is given to General Chairman C. H. Durant of Pittsburgh and his able aides for their untiring efforts in making this event such a grand success. Mr. Durant was assisted by James Wardley of Connellsville, H. G. Fletcher of Fairmont, J. M. Garvey of Wheeling, James Akin of Youngstown and H. W. Bloss of Cumberland as district chairmen of the several committees having charge of the affair.

Man Loses Hundreds Of Dollars

"I am sorry I did not hear of May's Wonderful Remedy a few years ago, as it would have saved me several hundred dollars. Five years I suffered from indigestion and severe bloating. I grew worse all the time. My doctor said an operation would be all that could save me. I took a course of May's Wonderful Remedy instead and for the past year have been entirely well." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. A. A. Clarke and druggists everywhere.—Advertisement.

Half Holiday Most Successful Movement Tried

"Nothing we ever attempted was quite as successful as the Wednesday afternoon closing movement," said a merchant this afternoon in commenting on the fact that nearly every establishment in the city had responded in order that the clerical help might have a half holiday each week during the hot weather.

And the merchants are not losing any business over it, according to this one, who said that his store was "just as busy as we could be" during the forenoon today.

Many merchants have taken to advertising specials for Wednesday forenoon.

Pendleton, Dick, Hall and A. Soisson Survive Second Round of Tennis Tournament

Match Between Hall and Paul Soisson Is Hottest of Any Yet Played.

BOYS MAKING PROGRESS

The tournament of the Connellville Tennis Association, featured by some hot matches, went through the second round yesterday and brought the play up to the semi-finals. Some thrilling play occurred at various times during the afternoon and the spectators who occupied the benches were given a glimpse of the best form of some of the association's players.

The match between George Hall and Paul Soisson furnished the greatest exhibition of court play since the tournament opened. Hall had previously defeated Robert Herwick and he went after Soisson in the first set in the same manner, copying it 6-3.

In the second set Soisson regained his composure and came through 6-3. The third set, too, was a battle for supremacy and survival in the journey. Soisson could not place the ball out of reach and he succumbed, 6-4.

Albert Soisson, winner of the tournament last year, took two out of three sets from John Gans, Jr. John was victor in the first, 6-4, but went out in the next two, 6-3 and 6-4.

Dick survived the second round by defeating Guy Decker, 6-3 and 6-3 in straight sets. O. R. Herwick defaulted to Reid Pendleton, the former's playing arm being in very poor condition.

The doubles will be played this afternoon following the completion of the semi-finals.

In the Junior tournament opened yesterday morning, Horner defeated Guyan, 6-1 and 6-4; Zimmerman defeated Goldsmith, 6-4, 2-5 and 6-4; Brown defeated Aaron, 6-1 and 6-1; Peto defeated Cowles, 6-5, 6-3 and 6-2.

In one match in the second round, McClaren, who had drawn a bye, defeated Brown, 6-1 and 6-4.

One doubles match in the men's event was played yesterday afternoon. Wright and Dick defeated Gans and Casper, 6-1 and 6-4.

Capstan Wins Again; Victor At Fairchance

Teams may come and then they go, but it seems that the Capstan Independents are always coming home with the bacon as they did last evening by putting the kids to the Fairchance outfit at Fairchance. In a seven inning encounter the score was 9-4. Thirsting for revenge following the defeat Monday evening at Stewart, the Capstan outfit began swatting the pill early, tallying four times before the side could be retired in the opening inning. Fairchance counted twice in the initial frame, as did the glass blowers in the first of the second. The Fairchance outfit tallied once in its half of the second. With the score 6 to 3, both teams put up a good game until the fifth, when the glass blowers began a battling rampage and shot four markers over the pan. Fairchance tallied once. That ended the scoring for the day.

"Hoot" Fisher, with his war club, hit two doubles and a triple in four times to the plate. He tallied twice. "Pop" Francis proved to be the undoing of the home team, scoring three times on one hit. He got three passes. He is proving himself a capable lead-off man, as is George Clawson in clean-up position.

George Clawson pitched a good game, allowing the losers but seven hits. He issued one free ticket and whiffed one. Walters began the game for Fairchance but lasted only until the end of the second. He exchanged places with Robert behind the bat. Robert fared well until the fifth, when the war clubs began feeling his hooks.

Another large crowd witnessed the game, close to 1,000 attending. The Capstan outfit has been a drawing card throughout the entire coke district. The crowd at South Connellville is swelling every day. Close to 1,500 witnessed the last game and more are expected to come to the Dingliffers home lot. A record crowd witnessed Capstan's defeat at Stewart Monday evening, when 1,500 fans turned out, the largest crowd to witness a ball game at Stewart.

When Capstan plays Smithfield Independents July 26 at Fayette Field for the benefit of the Fire Department the visiting team will have in its lineup Jim Hagerly, former manager of the Connellville Independents, who has just been signed by the Smithfield outfit.

Capstan and Manotown Independents

play this evening at 8 o'clock at Capstan Field.

The Diva Independents and the

fast Perryopolis outfit will clash this evening at the Dickerson Run grounds. The Diva team has pulled out of its slump and the outfit is confident of putting the hooks to the Perry combination. "Bill" Adida will work on the mound for the Young Valley outfit. Probably the same lineup will be used by the tri-towners. Steve Schomage will work behind the bat.

PRESBYTERIANS NOW THREATEN TOP PLACE IN HORSESHOE LEAGUE

The Presbyterians slid into second place in the Church Horseshoe League yesterday evening by defeating the Methodist teamers. The victors garnered 14 games to 11. The Presbyterians are only slightly behind the Lutherans who play the Christians on Thursday evening.

The scores:

More Old Balls in Play Will Aid Curve Hurriers

"If the umpires keep more old balls in play, I look for a marked improvement in curve ball pitching in the National league this year."

There you have the opinion of Pitcher Johnny Morrison of the Pittsburgh Pirates, conceded to be the best curve-ball artist in the National league, if not the majors.

"The almost constant use of the new ball is a terrible handicap to a pitcher who relies on his curve for success," says Morrison.

"This is particularly true if a new ball is tossed to him by the umpire in the old pinch, a couple on a base hit needed to win the ball game."

"The batsman well knows that it is a difficult matter to make a new ball break sharply. He has an ace in the hole and keeps looking for the fast one or just a no-no curve."

"More old balls will be particularly helpful to the curve ball pitcher. Incidentally, they will be an incentive to more pitchers to develop their curve."

The Professional association, the last regularly organized league of baseball clubs, flourished from 1871 to 1875.

"A LITTLE ENGLISH COTTAGE"

DESIGNED BY W. W. FURLEY

Picture this Little English Cottage built on your lot in the suburbs of a large city, or a small country town.

The architect when planning for a client in a small town is repeatedly "up against" the proposition, that his client puts to him, "That I can't put so much money in a home in that town, because I'll never get it back." He thinks therefore, that he must be content to build "just a plain ordinary home," just like John Jones across the street. So he goes to his contractor, and tells him to build a home for him, little realizing that a home which is a little out of the ordinary, does not cost any more, and he is much more likely to dispose of it if he wishes to sell.

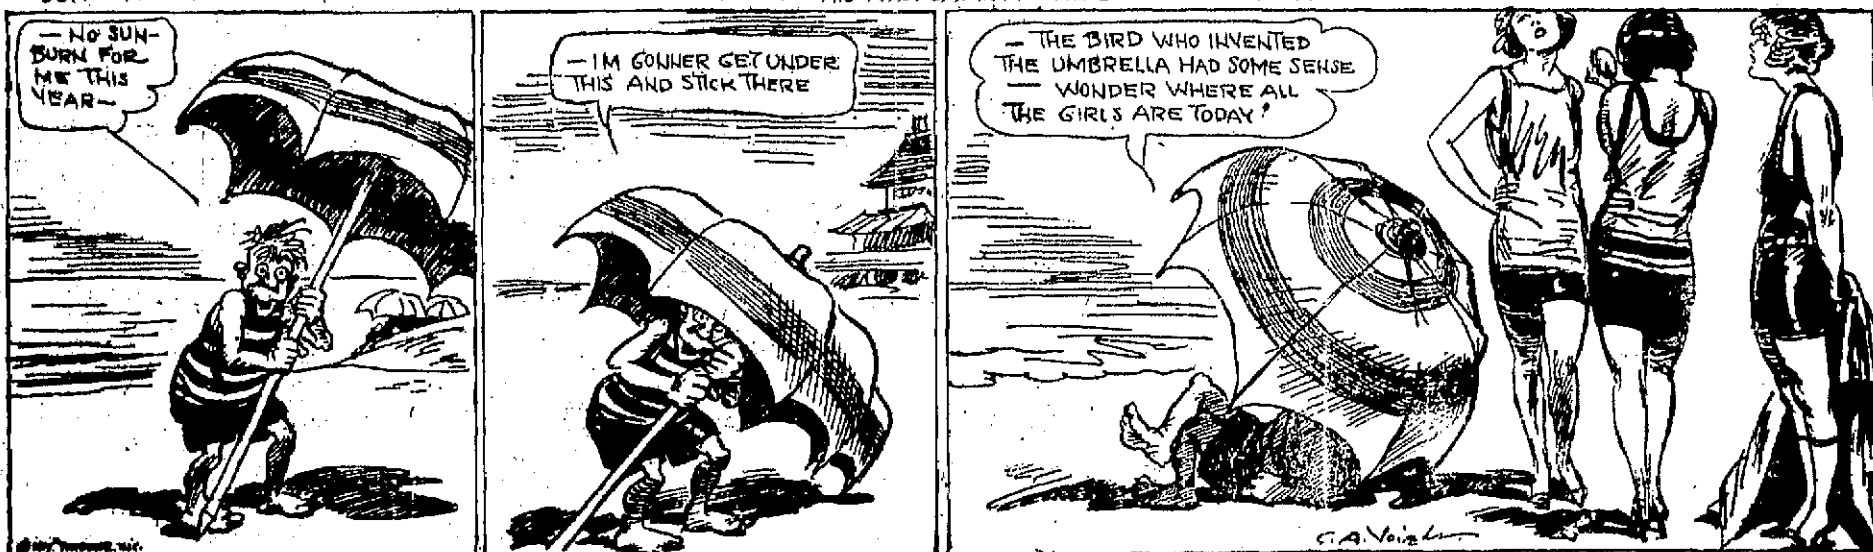

This home, designed to beat the high prices on home construction, utilizes every inch of space, gives to the owner his money's worth, regardless if built in the city or small town.

Study the plan. Has anything been forgotten? A screened-in porch, large living room, two nice bedrooms, kitchen with charming breakfast alcove, convenient and economical bath. "Reads just like the real estate man's ad, a home you can build cheaper than you can buy."

Thirty-two by twenty-six, with full basement, scuttles to attic in hall. Built with hardwood floors, air trim; for about \$4,000 to \$4,500, exclusive of heating and plumbing.

The Paramount

"THE DARLING OF THE RICH"—In which Betty Blythe is seen in one of the best roles of her screen career is on view today and Thursday at the Paramount.

The star portrays the role of a young girl who comes to New York seeking to earn funds which will help to make her crippled little sister whole again. She finds, like so many other young and attractive girls that the great city does not care particularly about her difficulties. In the darkest hour, when she is absolutely desperate, she meets a financial princess, who sees in her beauty a talent which can be made profitable. The princess suggests to Charmion (Miss Blythe) that the latter can probably sell jewels for impoverished Russian noble families through her charms, and induces Charmion to change places with her.

Thus, overnight, the poverty stricken girl finds herself a "Princess" with all the funds necessary to her position at hand. Millions crowd her drawing-room. Feet are given which, by the way, are a delight to the eye and permit Miss Blythe to wear bizarre gowns which make her wonder less than ever why she was originally chosen to play "The Queen of Sheba." She is equally attractive as the Queen of New York. The picture is on view today and Thursday at the Paramount.

The Soisson

"RACING LUCK" a crashing comedy with Monty Banks in the stellar role, is the feature attraction today at the Soisson.

As the Italian immigrant boy, who comes to America to seek fame fortune and all the side-dishes that go with the quest, Monty Banks is ideal. He falls in love with a winsome and charming girl, Rodina, played splendidly by Helen Ferguson and his efforts to make her happy and prepare for the future wedded life cause no end of amusement and entertainment as Monty incurs the undying hatred of a ward leader and bully, Tony Mora who leaves no stone unturned to harm Monty physically, financially and romantically.

Just when Monty is thrown and thrown is perfectly proper considering that Tony and his gang maligned Monty as though he were a football although Monty lived the daylights out of Tony in a free-for-all fight that took place in a big public eating place, out of a good job and his bank-roll pinched in the throwing he gets an offer to take part in a big auto race. Monty, knowing he can't even drive a car, takes a chance. After a few lessons in driving he goes into the race. And what a race! The laughter is so long that once face becomes wrinkled, doubled and creased long before the race is over. Thursday, Friday and Saturday Jack Holt and Dorothy Dalton will be seen in "The Lone Wolf."

The Orpheum

"THE DAWN OF TOMORROW" on view today and Thursday at the Orpheum is a Paramount picture with Jacqueline Logan supported by a splendid cast, in the leading role.

The story, by Frances Hodgson Burnett, differs from all other successful plays that have been pictured in that it underlines the importance of one's own intellectual attitude toward life, and the effects of things unseen and only thought.

Miss Logan's role as the London wait, Glad who makes things come right by the strength of her "wisdom" and "arskin" we regard as one of the greatest attainments of her phenomenal career. There is an inner force about her acting that radiates her impersonation and makes it both strong and winning. In the scene in which she repels the advances of a doting degenerate and forces him to do her will merely by "arskin" and "arskin" the Unknown Power she blindly believes in to compel him, she reaches the height of her performance and grips her audience with genuine power. She has some very excellent assistance from Torrence and Griffith and the two other featured players, and from several members of the supporting cast, Alma Bennett and Guy Oliver in particular.

VANDERBILT WILL SOON HAVE FINE SWIMMING POOL

Force of Men at Work on Project at Jefferson School, Nearest Place.

OTHER NEWS OF THE DAY

Special to The Courier.
VANDERBILT, July 18.—The local cry for a swimming pool seems to have had some results. A committee of local men has planned to build a large dam near Jefferson school house on Pearson's farm for the use of bathers. Construction work is under way. Fourteen blasts were fired yesterday, trying to get rid of the large stones. The dam when completed will be 50 feet long, 35 feet wide and will range from three to eight feet in depth. Dredging accommodations will be built. Efforts to have the dam built closer to the town were of no avail, when it was discovered that there was no fresh water. All of the water is contaminated with sulphur.

Second of Series Thursday.
The baseball fans are looking forward to the baseball game that will be played between the married and single men of the Dickerson Run car shop Thursday evening at 8 o'clock. This is the second game of the five-game series. The married outfit is carrying one scalp and is confident of repeating. The bachelors are out for revenge and will put their best line-up to put the hooks to the married outfit. Malley and Evans will form the battery for the married men, while Ambrose and Stoner will complete the firing line for the bachelors. This game is being played for the benefit of the Pittsburgh & Lake Erie Athletic Association at Dickerson Run, which is helping the bachelors' team representing the Dickerson Run shop. Manager Johnson of the married men had his position on the field Tuesday evening putting them through a stiff practice. Manager Ambrose is scheduled to have his men out for practice this evening.

Frank Post Meets Tonight.
Henry Lewis Frank Post, Post of the American Legion will meet this evening at the Legion rooms. Every member is requested to be present. Post Commander Lewis Marotti announced that application blanks for the soldier boys would be filled out and that every member is requested to bring his discharge papers with him. Perryopolis and Star Junction World War veterans who are members of the Post are expected to attend.

Recreation Ground News.
The recreation program for last evening at James Cochran Memorial Methodist Episcopal Church was not carried out, as the men who were supposed to receive their tennis instruction were busy working on the dam. The boys of the church received their tennis workout at 8 o'clock yesterday morning. Tomorrow evening the girls and women of the church will use the recreation grounds under the direction of Mrs. C. H. Beall.

D. E. Boes Victory at Newell.
The Dickerson Run railroaders will clash at Newell Saturday evening meeting the hard hitting and "high-gassed" combination which has yet to taste defeat. After putting the Smoky City combination away last Saturday afternoon the local outfit is confident of putting the odds to the Newell aggregation. Manager Addie will hold practice Friday and every member of the roster must be present.

Rehearsal Night Changed.
The regular meeting night of the Sunday school orchestra of the East Liberty Presbyterian Church was changed from Tuesday evening to Friday evening, Director C. G. Collins announced last evening. Every member is expected to attend Friday evening as new members will be taken in.

New Junior Officers in Charge.
The J. O. U. A. M. met Monday evening in a regular weekly session. The officers who were installed Saturday evening assumed their duties.

Babe Born to Wellings.
The stork made its first call on Mr. and Mrs. William Wellings when he deposited an eight-pound daughter, Mrs. Wellings formerly was Miss Mildred Mosser of Dawson.

Personal Mention.
Mr. and Mrs. Walter McCune and the former's sister, Mrs. Sarah Donough of North Bessemer, were among the local attendants at the Baltimore & Ohio Veterans' annual outing at Versailles yesterday.

Lewis Stear was calling on friends in Uniontown last evening.

Walter C. Abate was transacting business at Brownsville yesterday.

Nicholas Cavalcante was visiting with friends and relatives at Star Junction yesterday.

Mrs. Walter McCune is spending the week at Glasport.

Great Block of Coal Memorial to World War Heroes

By United Press.
LATTIMER, July 18.—What is considered one of the most unique war memorials in the state stands in front of the office of Pardee Brothers & Company, here. It is a huge block of anthracite coal weighing between eight and nine tons mounted on a large concrete base and with a bronze tablet on which is inscribed:

"In memory of employees of Pardee Brothers & Company—World War, 1917-1918."

The enormous piece of coal was cut out of one block in a local mine of the company by comrades of the men who fell.

Chrysler Six Equipped With Special Balloons

The Brougham

Step into a balloon-equipped Chrysler Six and note how easily the steering wheel, once physical steering is the chief reason. The steering knuckles are located at an angle, and turn on ball thrust bearings. Chrysler Six's frame is wider, longer and stronger than the standard width of balloon tires.

The Touring, \$1995 The Sedan, \$2095
The Brougham, \$2295 The Light, \$2095
All prices include delivery and taxes.

Central Motor Co.

121 W. Apple St. Connellsville, Pa.

Special sturdy, high-speed balloon tires—for which the Chrysler Six is designed from the ground up—are standard equipment on this car.

Chrysler Six's special steering, its special design of spring construction, its extra-wide fenders, all contribute to the use of balloon tires with complete success.

The higher speed capacity of the Chrysler Six demands more than the ordinary balloon tire, so a special sturdy, balloon has now been perfected. These Chrysler special high-speed balloons secure the owner of even greater riding ease and safety, with no greater tire service expense, and mileage records the equal of cord tires.

We are pleased to extend the opportunity of inspecting this about Chrysler's complete plan.

PUBLIC SERVICE COMMISSION HEEDS PROTEST STEEL COS.

Against Proposal of Railroads to Increase Rates on Steel.

ADVANCE NOT JUSTIFIED

The Pennsylvania Public Service Commission has acted favorably upon the protest of the steel companies of Western Pennsylvania against the proposal of the railroads serving the Pittsburgh district to increase the freight rates on steel shipments, and has issued an order cancelling the rates which would otherwise become effective on August 1.

The complaints were the American Bridge Company, the American Sheet and Tin Plate Company, the Carnegie Steel Company, the Lorain Steel Company and the National Tube Company. The railroads against the rates were the Baltimore & Ohio, the Bessemer & Lake Erie, the New York Central, the Pittsburgh & West Virginia, the Pittsburgh, Charlotte and York, the Buffalo, Rochester and Pittsburgh, the Bethlehem Steel Company, the American Institute of Steel Construction, the Pittsburgh Bridge and Iron works, and the Chamber of Commerce of Pittsburgh. The steel companies claimed that the proposed rates, which would apply between several plants of the companies and between their plants and points in the short haul market district, were unreasonable and unjust.

The decision of the commission is that "upon all the facts of record we find that the proposed rates as a whole have not been justified and an order is issued directing their cancellation. Inasmuch as the tariff hearings involved are not and will not become effective, and inasmuch as a report of the Interstate Commerce Commission for the proceeding herein before referred to, contemplates that the respondents submit new tariffs, the commission will set this case aside from making an order specifying maximum, just and reasonable rates."

The respondents now have opportunity to submit revised rates proposed on or in relation to tariffs filed with the Interstate Commerce Commission in accordance with the report mentioned.

Fashionable Colors

Decided emphasis is laid upon a beige tone which has a slight pinkish shade. This is shown for rather formal frocks for town wear, while pale pink still continues to be conspicuously exploited in costumes for the country and for sport.

Guards Mails Against Fraudulent Promoter

Back D. Simmons, chief post office inspector, whose army of 600 inspectors guards the mails against the fraudulent promoter, runs down mail bandits, robbers and helpup men, negotiates leases for post office buildings and investigates post offices to discover discrepancies in accounts and makes recommendations for more efficient service. Mr. Simmons was born in Lake Mills, Wis., in 1865, and first served in the department in 1889 when he was appointed inspector and assigned to Denver, Colo.

Her First Experience

A minister's little daughter was attending her first church service, at which her father presided. On his entrance, she was greatly surprised, and cried out in joyful recognition, "Why, there's my papa up in that box!" Mother and aunt swooped down upon her, and the little maiden was cautioned to keep silent. But the service was long, and the wee worshiper got very tired. Mother whispered that it would soon be over, but baby-nature had reached its limit of endurance. Walking into the aisle, she cooingly asked, "Isn't you nearly done, papa?"—Detroit Free Press.

Land by the Ocean

America's most expensive real estate, undoubtedly, is the soil of New York city. For instance—

The wife of a banker—the banker having lately been "called" to New York—to join the staff of a New York bank—sought in light on the couple's apartment by growing a pot of flowers. A friend had sent her some bulbs. From a florist she bought a little pot—price 25 cents.

"And now," she said to the florist, "I'd like to have you fill the pot with some nice, rich soil."

"Lady," said the florist, "I can supply the soil, all right, but I'll cost you twice as much as the pot."

CAMPAIGN WILL BEGIN IN EARNEST EARLY IN AUGUST

Continued from Page One.

his party throughout the country, effectiveness depends on teamwork and a united party.

To all this the Republicans are preparing their answer. They declare that President Coolidge took office in the midst of the administration of another, that he has not yet had a vote of confidence from the people enabling him to make his own appointments to office and that Congress will be more obedient to his wishes after a general election than it has been.

Probably no new thoughts or formulas will be divulged in either speech of acceptance for the necessities of the situation especially in the west have been plain to legislators for some time. Everybody, for instance, was agreed that agricultural relief was needed this year and is still necessary but no program that insured relief was evolved. So also with respect to foreign policy which will help to build up American export trade. The principles of the hour are not going to be a matter of much concern but the method of applying them and carrying them out will challenge the wit of both candidates as they appeal to the people.

By Consolidated Press.

WASHINGTON, July 16.—David Lawrence, the Washington correspondent who has been writing for The Courier will take a vacation beginning today—the first he has had in 12 years. During that time he has written a dispatch of nearly 1,000 words for every consecutive week-day of the year or a total of about 2,750,000 words.

Nineteenth century novelists used to think they produced a great amount of work when they had a novel a year. Taking the average length of a book at about 50,000 words, for the newspapers, David Lawrence has written the equivalent of about 55 books.

The modern newspaper man, however, not only has the labor of writing but spends most of his time in the actual gathering of material. David Lawrence has always gathered his own news and has never permitted the use of his name over anything that he has not himself written. Mr. Lawrence's writing will be resumed in The Courier in about two weeks, when he will begin work on the presidential campaign making a nation-wide survey in September and October.

Only One Solar System

No other system resembling our solar system is known to exist. However, there are many double, some triple, and some quadruple stars; but unless the smaller members of such systems are more comparable in size to the sun than to Jupiter, we have no means of knowing of their existence. The smallest star whose mass is known with fair accuracy seems to be at least one-eighth as heavy as the sun, while Jupiter is less than a thousandth as heavy as the sun.

Walter P. Chrysler Says—

The sweeping success of the good Maxwell is squarely due to the fact that it affords the most advanced engineering at a price within reach of every one who can afford a car at all.

As in the Chrysler Six, scientific engineering has now produced such revolutionary results that unless a man at least tests them himself, he cannot be sure of securing the highest motoring satisfaction.

Maxwell's most recent development has to do with notable improvement in every phase of riding, driving and performance, economy and long life, and the reduction of vibration to a degree never before thought possible in a four.
